The end of the page. The beginning of better internet.

We could brag, but our customers do it better — here's what they're saying!

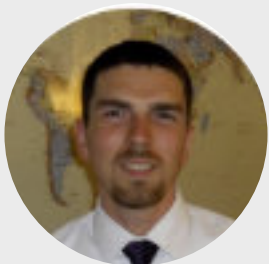

“Insanely good customer service. I texted in at 9:30pm noting that my internet speed is much lower than it should be (150mbs download on the 1GB plan) and I had them responding to me trying to trouble shoot 15 min later. What other internet company will respond after hours, let alone over text within 15min. Love them!”

– Masyn Barney, SFCN Customer

“Every. Single. Interaction. That I have had with SFCN has been a good one. That is so rare for any company, much less an ISP. They are polite, fast, and they care about your issues and want to resolve them. The internet service is incredibly reliable and if you do have any issues at all they customer service is top-notch. SF is truly lucky to have such a good local utility.”

– Carson Anderson, SFCN Customer

“I am a network engineer, and as a resident I am impressed with what SFCN is doing with their service. Fiber at no additional cost is great, and will provide the right infrastructure for years to come.”

–Doug Hales, SFCN Customer

SFCN vs. The Other Guys.

Feature	SFCN (That's Us 🤪)	Them (Big ISPs 🙄)
Monthly Price	\$45 flat	“\$29.99*” (then 89.99 🙄)
Contract Required	Nope.	1–2 years. Exit fee included.
Data Caps	Never. Stream away.	Yep. Then they throttle you.
Service Calls	Free. Same day.	Might show up. Might not.
After-Hours Support	24/7 local support	“Try unplugging it.”

See the difference? It's Forkin' Obvious.
